JOHN SMITH

Federal P Card = GSA

- Federal procurement guidelines require use of the card for transactions less than \$3000.
- The Federal government's Visa / MasterCard card use is increasing rapidly.
 - State, counties and local municipalities are also significant users
- Since 1998 (when a new 10-year contract was issued), the program has increased more than 100% in dollars expended and 60% in transactions.
- In fiscal year 2009, **269,913 Federal Purchase Card** cardholders spent **\$19.317 Billion dollars** via **21.8 million transactions** for goods and services.

Aggressive buyer utilization of purchase cards means strong supplier growth and demand.

Solutions That Pay

Welcome to the EC-Zone Video Training System.

First, thank you for your interest and for the opportunity to earn and maintain your business. We appreciate the trust you have placed in 3DSI and our systems and strive to make sure they deliver the full results you expect.

It is towards this objective that we have invested in this video-based training system - we want to make sure that you have on-demand access to the best instruction and guidance possible for using the EC-Zone system. We believe that this video system captures our expert trainers doing their best trainings in the best circumstances. If you still have questions after using the training system, please contact us - we need your feedback to continue to improve this training system.

Aaron Bills
Chief Operating Officer

This video training system is organized by each functional area of the EC-Zone. You can watch each chapter sequentially, or click on a link for a specific area of interest.

Each video will have the following:

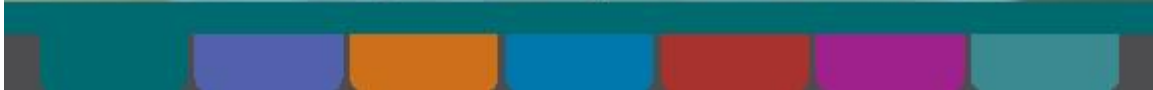

- ▲ Audio narration explaining how to use the system's features
- ▲ Text-based sub-titles for emphasis and for users without computer speakers available
